Job Description

Job title: Android Developer
Location: H-141, Sector 63, Noida, U.P., 201301
Terms: Full Time
Salary : Performance Based

About us: Acural Solutions is an ISO 9001:2015 certified IT services provider focused on delivering exceptional solutions tailored to our clients' specific needs. With a deep understanding of diverse industry verticals, we offer a comprehensive range of hardware and software solutions designed to drive business growth and efficiency. Our commitment to quality, cost-effectiveness, and timely delivery ensures that our clients achieve a competitive edge in the market.

About the role: As an Android Developer, you'll be involved in the development and maintenance of Android applications. This includes tasks like:

- Designing and developing user interfaces
- Implementing application logic and features
- Testing and debugging applications
- Working with APIs and databases

Responsibilities:

- Develop and test Android applications
- Collaborate with design and development teams
- Learn and adapt to new technologies
- Contribute to the improvement of existing apps

Qualifications:

- Pursuing a degree in Computer Science, Engineering, or related field.
- Strong understanding of Java programming
- Familiarity with Android SDK and Android
- Knowledge of UI/UX design principles
